---

# About Us

The U.S. Climate Alliance is a bipartisan coalition of 24 governors securing America's net-zero future by advancing state-led, high-impact climate action.

---

# Our Coalition

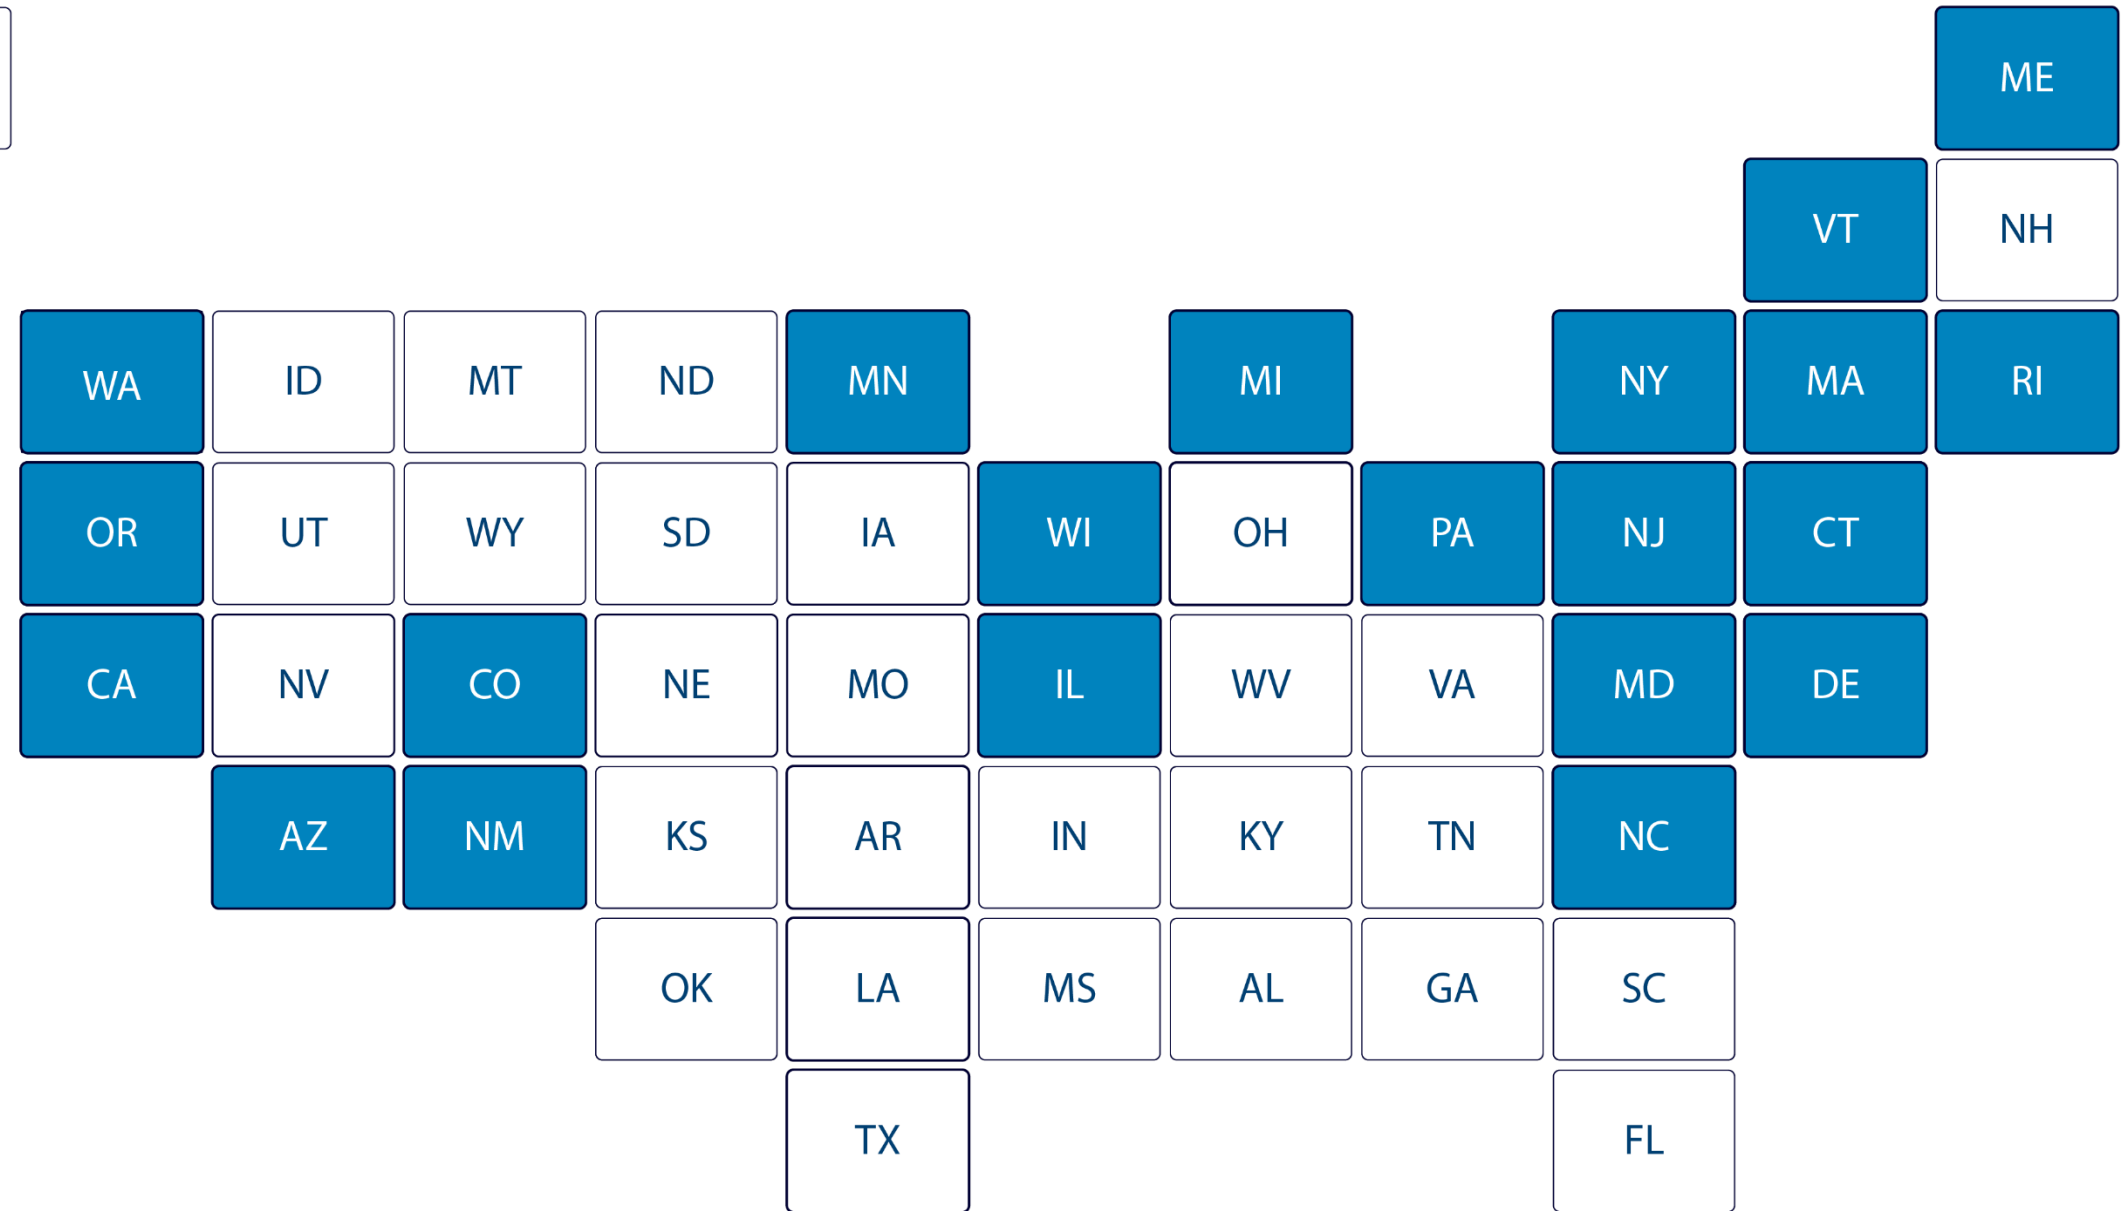

Launched in 2017 by the governors of Washington, New York, and California, the Alliance now includes governors from 24 states and territories, representing approximately 55% of the U.S. population, and 60% of the U.S. economy.

# Our Coalition

- Arizona
- California
- Colorado
- Connecticut
- Delaware
- Guam
- Hawai'i
- Illinois
- Maine

# Member Commitments

Alliance members are working to achieve the Paris Agreement's goal of keeping temperature increases below 1.5 degrees Celsius through four key commitments:

**1**

## Reducing Emissions

Reducing collective net greenhouse gas (GHG) emissions at least 26-28% by 2025 and 50-52% by 2030, both below 2005 levels, and collectively achieving overall net-zero GHG emissions as soon as practicable, and no later than 2050.

**2**

## Accelerating Action

Accelerating new and existing policies to reduce climate pollution, build resilience to the impacts of climate change, and promote clean energy deployment at the state and federal levels.

**3**

## Centering Equity

Centering equity, environmental justice, and a just economic transition in their efforts to achieve their climate goals and create high-quality jobs.

**4**

## Tracking Progress

Tracking and reporting progress to the global community in appropriate settings, including when the world convenes to take stock of the Paris Agreement.

# The Secretariat

## Collaboration

Facilitate state-to-state collaboration and exchange across sectors.

## Initiatives

Provide technical expertise and capacity support.

## Resources

Provide technical expertise and capacity support.

## Engagement

Provide a platform to advance action across government.

# Policy Priorities

Together, Alliance members are advancing high-impact policies, actions, and regulations across 10 key policy areas:

GHG Targets  
& Governance

Buildings

Climate  
Finance

Electricity  
Generation

Industry

Just Transition  
& Equity

Natural &  
Working Lands

Pricing Carbon  
& Valuing  
Damages

Resilience

Transportation

# Alliance-Wide Initiatives

# Our Impact

Compared to the rest of the country, Alliance members are collectively delivering more:

Air Pollution Reductions

Economic Growth

Clean Energy Jobs

Emissions Reductions

Energy Savings

Climate Resilience

Zero-Carbon Electricity

The Alliance's collective net  
GHG emissions have  
decreased an estimated

19%

2005-2022
